

<b>Model Name</b>	Ceiling Mount 460
<b>Model Code</b>	PSC-501T1
<b>Filtration</b>	Bipolar Plasma Ionization HEPA 13 Filter
<b>Unit Air Circulation Range</b>	460m <sup>3</sup> /h
<b>Standard Area Range</b>	50 – 100m <sup>2</sup>
<b>Noise Level (dBA)</b>	≤50dB
<b>Standards &amp; Certificates</b>	ISO9001:2015 CE Certification
<b>Shell Material</b>	Sheet Metal
<b>Tube Material</b>	Multiple Composite with Stainless Steel outer net
<b>Mounting</b>	Ceiling
<b>Dimensions (L x W x H) mm</b>	625 x 625 x 180
<b>Weight</b>	16.5kg
<b>Lockable</b>	Yes
<b>Power</b>	60W
<b>Voltage Supply</b>	AC220V±10%, 50/60±1Hz; AC110V±10%, 50/60±1Hz
<b>Ion Tube Life</b>	20,000 hours
<b>Warranty:</b>	12 Months

## Product Information

The ceiling mounted independent standalone plasma air purification units are suitable for use when there is no ducted air movement system. The units provide bipolar ionization technology, high efficient HEPA air purification with overload safety protection design and dual protection of power supply fuse switches. The ceiling unit has 4 step speed fan speed controller to providing continuous disinfection control.

^Variation in quantity of units if current air-condition unit is incorrectly sized

Sizing or quantity of the Air Plasma Ionizer units will be based on the total volume of the room or facility.
